

## **Graduation Criteria**

There are no attendance rules for classes, but regular attendance does correlate with success and it's hard to become a good dancer without practice.

SAGE graduates class members who dance at club level (Mainstream/67 calls) or who are expected to dance club level soon. The Class Coordinator, in consultation with the Caller and the President or class angels, determines who will graduate a few weeks before the end of each class series.

Graduates are then welcome to join SAGE as a Club member and should be ready to dance comfortably at all dances at the MS level.

Square dancing is FUN! And, that said, it is always a challenge to learn something new and it requires commitment like the development of any new skill. We are all here to support you and we want you to do well. If you find yourself struggling, please ask for help!
